

# CHIC DNA Repository

**HELP -- PLEASE HELP**  
**Help my dogs. Help your dogs.**  
**Help the entire canine population.**

Researchers desperately need your help. They are trying to find answers to inherited diseases. But they need DNA.

Last year I lost a dog to renal failure and I lost a dog to lymphoma. And I also lost my 15 year old foundation stud dog to old age. 2014 was not a good year for me.

We all need to work toward stamping out these killing inherited diseases.

**COST:** Only \$10.00 for dogs currently free of heritable conditions  
- Thanks to OFA this is a very small fraction of the total cost.  
No charge for dogs with heritable conditions.

Please give a small amount of your time, a blood sample, and a health history. Forms are available for download on the OFA Web Site: [www.offa.com](http://www.offa.com)

Fill out these forms and bring them with you. We will have extras at the clinic.

**HOW MANY DOGS OR BLOOD SAMPLES CAN YOU BRING?** \_\_\_\_\_

For questions or more information contact  
Jane Wooding  
203-731-4512 (cell) or [hnjwooding@aol.com](mailto:hnjwooding@aol.com)

## CARDIAC

**Dr. Frances Paulin** Bethel Village Square  
Animal Hospital Bethel, CT

Complete panel & analysis from Michigan State.  
Includes interpretation by Michigan State  
Veterinary Endocrinologist.

Meets requirements for OFA certification  
Age: Over 12 months for OFA certification  
Results mailed to you in approximately 4 weeks

Michigan State recommends that the dog be  
fasted (no food) for at least 8 hours prior to test.  
OFA recommends not testing during a bitch's  
estrus cycle. Others recommend waiting 2 weeks  
after a vaccination.

Bring: Copy of AKC registration  
Tattoo or Chip # Information  
Results of previous testings if any
